

September 2008

Ladies and Gentlemen,

After many months of hard work by a diverse advisory committee we are bringing to you a Professional Teacher Checklist. This committee was made up of non-certified and certified (from ANG, EGA and NAN) teachers.

This list enables all of you to be able to be considered for additional pay; not just those that have graduate certification.

We hope you will read over the whole document and respond accordingly. We have tried to hit all the points of discussion and all aspects of teaching professionalism.

This checklist will be used to determine your pay level for the 2010 Columbus Seminar. Any constructive input will be welcome and will be considered for the following year. You will only be asked to fill this out once and the points will be saved on the faculty data base. If there are any changes to any of the areas in the future you can notify SFC of the changes.

If you have anything you think is relevant to be considered, please indicate on the back of the check list for review.

Sincerely,

Barbara A. Richardson
ANG President
